

ACT/Test Prep Club Information

Topics Covered

- General test taking skills
- Note taking strategies
- Reading
- Grammar
- Math

Why?

According to Education Week, “A 2023 analysis of ACT scores found that only 21% of high school graduates met ACT's college readiness benchmarks in all four subjects, highlighting the importance of adequate preparation for college-level coursework.” My goal with this club is to help students improve their score on the ACT, as well as preparing them for their future in higher education. Please leave your name and school email on the sign up sheet, and I will send out a poll to gather data to plan our meetings. At these meetings, students will take practice tests, learn effective test taking strategies, and cultivate time management skills.
